00016425, Version Number 18  
Updated 11/01/2016

**Note to existing enrollees:**

This formulary has changed  
since last year. Please review this  
document to make sure that it  
still contains the drugs you take.

# 2016 List of Covered Drugs

(Formulary)

## Buckeye Health Plan – MyCare Ohio | 2016 List of Covered Drugs (Formulary)

This is a list of drugs that members can get in Buckeye Health Plan – MyCare Ohio (Buckeye).

- ❖ Buckeye Health Plan – MyCare Ohio is a health plan that contracts with both Medicare and Ohio Medicaid to provide benefits of both programs to enrollees.
- ❖ The List of Covered Drugs and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.
- ❖ Benefits and/or co-payments may change on January 1 of each year.
- ❖ You can always check Buckeye's up-to-date List of Covered Drugs online at <http://mmp.buckeyehealthplan.com>.
- ❖ Limitations, co-pays, and restrictions may apply. For more information, call Buckeye Member Services or read the Buckeye Member Handbook.
- ❖ Copays for prescription drugs may vary based on the level of Extra Help you receive. Please contact the plan for more details.
- ❖ You can get this information for free in other formats, such as large print, braille, or audio. Call 1-866-549-8289. TTY users call 711. The call is free.
- ❖ You can get this information for free in other languages. Call 1-866-549-8289. TTY users call 711. The call is free.
- ❖ Usted puede obtener esta información en otros idiomas de forma gratuita. Llame al (866) 549-8289. Usuarios de TTY deben llamar al 711. La llamada es gratuita.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

# Frequently Asked Questions (FAQ)

Find answers here to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

---

## 1. What prescription drugs are on the List of Covered Drugs? (We call the List of Covered Drugs the “Drug List” for short.)

The drugs on the List of Covered Drugs that starts on page 10 are the drugs covered by Buckeye. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

→ Buckeye will cover all medically necessary drugs on the Drug List if:

- your doctor or other prescriber says you need them to get better or stay healthy, **and**
- you fill the prescription at a Buckeye network pharmacy.

→ Buckeye may have additional steps to access certain drugs (see question #5 below).

You can also see an up-to-date list of drugs that we cover on our website at <http://mmp.buckeyehealthplan.com> or call Member Services at 1-866-549-8289.

---

## 2. Does the Drug List ever change?

Yes. Buckeye may add or remove drugs on the Drug List during the year. Generally, the Drug List will only change if:

- a cheaper drug comes along that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from Buckeye before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).
- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

(For more information on these drug rules, see page 4.)

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

We will tell you when a drug you are taking is removed from the Drug List. We will also tell you when we change our rules for covering a drug. Questions 3, 4, and 7 below have more information on what happens when the Drug List changes.

→ You can always check Buckeye's up to date Drug List online at <http://mmp.buckeyehealthplan.com>.

You can also call Member Services to check the current Drug List at 1-866-549-8289.

---

### **3. What happens when a cheaper drug comes along that works as well as a drug on the Drug List now?**

If you are taking a drug that is removed because a cheaper drug that works just as well comes along, we will tell you. We will tell you at least 60 days before we remove it from the Drug List **or** when you ask for a refill. Then you can get a 60-day supply of the drug before the change to the Drug List is made.

We will mail you a notice if you are taking a drug, and we change our rules for covering it. You will receive the notice by mail at least 60 days before we change the drug rules or remove the drug from our List of Covered Drugs. For example, if you are taking a drug, and we add prior authorization (approval) or quantity limits, the notice you receive will explain the new rules. We must tell you of this change at least 60 days before it becomes effective. Or, we have to tell you when you request a refill of the drug. If we tell you when you refill your drug, you will receive a 60-day supply of the drug. For more information on these drug rules, see page 4. If you have questions about the notice you receive from Buckeye, call Member Services at 1-866-549-8289. TTY Users should call 711. Hours are from 8 a.m. to 8 p.m., seven days a week.

---

### **4. What happens when we find out a drug is not safe?**

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the Drug List right away. We will also send you a letter telling you that. If you have any questions after being notified of the change, you should contact the doctor who prescribed the drug for you.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

---

## 5. Are there any restrictions or limits on drug coverage? Or are there any required actions to take in order to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior approval (or prior authorization):** For some drugs, you or your doctor or other prescriber must get approval from Buckeye before you fill your prescription. If you don't get approval, Buckeye may not cover the drug.
- **Quantity limits:** Sometimes Buckeye limits the amount of a drug you can get.
- **Step therapy:** Sometimes Buckeye requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 10 to 212. You can also get more information by visiting our web site at <http://mmp.buckeyehealthplan.com>. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an "exception" from these limits. Please see question 11 for more information on exceptions.

→ If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List, or if you cannot easily get the drug you need, we can help. We will cover a 31-day emergency supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new Buckeye member. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to request an exception. Please see question 11 for more information about exceptions.

---

## 6. How will you know if the drug you want has limitations or if there are required actions to take to get the drug?

The List of Covered Drugs on page 10 has a column labeled "Necessary actions, restrictions, or limits on use."

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

---

## 7. What happens if we change our rules on how we cover some drugs? For example, if we add prior authorization (approval), quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior approval, quantity limits, and/or step therapy restrictions on a drug. We will tell you at least 60 days before the restriction is added or when you next ask for a refill. Then, you can get a 60-day supply of the drug before the change to the Drug List is made. This gives you time to talk to your doctor or other prescriber about what to do next.

---

## 8. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by medical condition.

To search **alphabetically**, go to the Alphabetical Listing section. You can find it by reviewing the index of drugs that begins on page 213.

To search **by medical condition**, find the section labeled “List of drugs by medical condition” on page 10. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

---

## 9. What if the drug you want to take is not on the Drug List?

If you don't see your drug on the Drug List, call Member Services at 1-866-549-8289 and ask about it. If you learn that Buckeye will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please see question 11 for more information about exceptions.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit

<http://mmp.buckeyehealthplan.com>.

---

## 10. What if you are a new Buckeye member and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of Buckeye. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to request an exception.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior approval by Buckeye, **or**
- you are taking a drug that is part of a step therapy restriction.

If you live in a nursing home or other long-term care facility, you may refill your prescription for as long as 91 to 98 days. You may refill the drug multiple times during your first 90 days in the plan. This gives your prescriber time to change your drugs to ones on the Drug List or ask for an exception.

Throughout the plan year, you may have a change in your treatment setting (the place where you get and take your medicine) because of the level of care you require. Such transitions may include, but are not limited to:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled-nursing facility to another and are served by a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where payments include all pharmacy charges) and who now need to use their Part D plan benefit
- Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
- Members discharged from psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, Buckeye will cover as much as a 31-day temporary supply of a Part D-covered drug when you fill your prescription at a network pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and get approval for continued coverage of your drug. We will review these requests for continuation of therapy on a case-by-case basis when you are on a stabilized drug regimen that, if changed, is known to have risks. To ask for a temporary supply of a drug, call Member Services.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

---

## 11. Can you ask for an exception to cover your drug?

Yes. You can ask Buckeye to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, Buckeye may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior approval requirements.

---

## 12. How long does it take to get an exception?

First, we must receive a statement from your prescriber supporting your request for an exception. After we receive the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of receiving your prescriber's supporting statement.

---

## 13. How can you ask for an exception?

To ask for an exception, call Member Services. A Member Services representative will work with you and your provider to help you ask for an exception.

---

## 14. What are generic drugs?

*Generic drugs* are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

Buckeye covers both brand name drugs and generic drugs.

---

## 15. What are OTC drugs?

*OTC* stands for "over-the-counter". Buckeye covers some OTC drugs when they are written as prescriptions by your provider.

You can read the Buckeye Drug List to see what OTC drugs are covered.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit <http://mmp.buckeyehealthplan.com>.

---

## 16. What is your copay?

You can read the Buckeye Drug List to learn about the copay for each drug.

Buckeye members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

Copays are listed by tiers. Tiers are groups of drugs with the same copay.

- Tier 1 drugs have a copay of \$0. They are Medicare covered generic drugs.
- Tier 2 drugs have a copay of \$0. They are Medicare covered brand name drugs.
- Tier 3 drugs have a copay of \$0. They are Medicaid covered mostly over-the-counter (OTC) drugs.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit

<http://mmp.buckeyehealthplan.com>.

## List of Covered Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

The list of covered drugs that begins on page 10 gives you information about the drugs covered by Buckeye. If you have trouble finding your drug in the list, turn to the Index that begins on page 213.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., HUMALOG) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the necessary actions, restrictions, or limits on use column tells you if Buckeye has any rules for covering your drug.

Abbreviations	Descriptions
<b>B/D</b>	This prescription drug has a Part B versus Part D administrative prior authorization requirement. This drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
<b>DP</b>	Drug is not a Part D drug. This item is covered under your Medicaid benefits. These drugs also have different rules for appeals.
<b>LA</b>	Limited Access. This prescription may be available only at certain pharmacies. For more information call Member Service at 1-866-549-8289. TTY users should call 711.
<b>PA</b>	Prior Authorization (or prior approval). Buckeye requires your doctor or you to get prior approval for certain drugs. This means that you will need to get approval from Buckeye before you fill your prescriptions. If you don't get approval, Buckeye may not cover the drug.
<b>QL</b>	Quantity Limit. For certain drugs, Buckeye limits the amount of the drug that will be covered. For example, only 30 tablets of JANUVIA per 30 days. This may be in addition to a standard one-month or three-month supply.
<b>MO</b>	Maintenance Drug. This prescription drug is eligible for a 90-day supply through our mail order service as well as through certain retail network pharmacies. Consider using mail order for your long-term (maintenance) medications (such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).
<b>ST</b>	Step Therapy. Sometimes Buckeye requires you to do step therapy. This means you might have to try one drug before we will cover another drug.

**Note:** The “DP” next to a drug means the drug is not a “Part D drug.” The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. These drugs also have different rules for appeals. An *appeal* is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Medicaid. If you or your doctor disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call Member Services at 1-866-549-8289. You can also read the Member Handbook to learn how to appeal a decision.

**If you have questions**, please call Buckeye at 1-866-549-8289, from 8 a.m. to 8 p.m., seven days a week. TTY users call 711. This call is free. **For more information**, visit

<http://mmp.buckeyehealthplan.com>.
