B. Providers

B1. Key terms

This section explains key terms in our *Provider and Pharmacy Directory*.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, long-term supports and services (LTSS), supplies, prescription drugs, equipment and other services.
 - The term providers also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and support.
 - Providers that are a part of our plan's network are called network providers **network providers**.
- **Network providers** are the providers that have contracted with us to provide services to members in our plan. The providers in our network generally bill us directly for care they give you. When you use a network provider, you usually pay nothing for covered services.
- A **Primary Care Provider** (PCP) is a family practice physician, a general practitioner, a pediatrician, a primary care clinic, or an internal medicine physician who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
 - Oncologists care for patients with cancer.
 - Cardiologists care for patients with heart conditions.
 - Orthopedists care for patients with certain bone, joint, or muscle conditions.
- You also have access to a care manager and a care team that you choose. Your PCP will work closely with your care manager and care team.
 - Your **care manager** helps you manage all your providers and services. They work with your care team to make sure you get the care you need.
 - Your **care team** includes doctors, nurses, counselors, or other health professionals. Everyone on the care team works together to make sure your care is coordinated. This means that they make sure tests and labs are done once and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that they can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers.

 **If you have questions**, please call Buckeye at 1-866-549-8289 (TTY: 711), from 8 a.m. to 8 p.m., Monday through Friday. After hours, on weekends and on holidays, you may be asked to leave a message. Your call will be returned within the next business day. If you need to speak to your care manager, please call 1-866-549-8289 (TTY:711) 24 hours a day, 7 days a week. These calls are free. **For more information**, visit mmp.buckeyehealthplan.com.

B2. Primary Care Provider (PCP)

You can get services from any provider who is in our network and accepting new members.

First, you will need to choose a Primary Care Provider, or PCP. If you do not choose a PCP, we will assign one to you.

To choose a PCP, use the list of providers on page 19 and:

- choose a provider that you use now, **or**
- choose a provider who has been recommended by someone you trust, **or**
- choose a provider whose offices are easy for you to get to.
- If you want help in choosing a PCP, please call Member Services at 1-866-549-8289 (TTY:711) from 8 a.m. to 8 p.m., Monday through Friday. After hours, on weekends and on holidays, you may be asked to leave a message. Your call will be returned within the next business day. TTY users should call 711. The call is free. Or, visit mmp.buckeyehealthplan.com.
- If you have questions about whether we will pay for any medical service or care that you want or need, call Member Services and ask **before** you get the service or care.

B3. Long-term supports and services (LTSS)

You may be able to get long-term services and supports (LTSS) which are also called Medicaid “waiver services,” such as home health aide services and adult day care as a Buckeye member. LTSS gives assistance to help you stay at home instead of using a nursing home or hospital.

To access LTSS, contact your care manager at 1-866-549-8289. TTY users call 711. The call is free. The care manager call line is available 24 hours a day, 7 days a week, 365 days a year. After hours, on weekends and on holidays, your call will be answered by our 24-hour nurse advice call line.

B4. How to identify providers in Buckeye’s network

You must get all of your covered services from providers within our network. These providers have an agreement to work with us and provide you services. We call these providers “network providers.”

The exceptions to this rule are when you need long-term nursing home care, urgent or emergency care, or dialysis and cannot get to a provider in the plan, such as when you are away from home. Also, for a specific period of time after your enrollment with Buckeye, you can use your

 **If you have questions**, please call Buckeye at 1-866-549-8289 (TTY: 711), from 8 a.m. to 8 p.m., Monday through Friday. After hours, on weekends and on holidays, you may be asked to leave a message. Your call will be returned within the next business day. If you need to speak to your care manager, please call 1-866-549-8289 (TTY:711) 24 hours a day, 7 days a week. These calls are free. **For more information**, visit mmp.buckeyehealthplan.com.

out-of-network physicians and other service providers, including nursing homes and assisted living providers, home health nurses, aides and LTSS or “waiver services” providers.

You can also go outside the plan if Buckeye gives you permission first. Call Member Services to ask for the use of providers outside of our network, so we can make arrangements for you.

- You may change providers within the network at any time during the year. If you have been using one network provider, you do not have to keep using that same provider. To change your PCP, call Member Services at the number below.
- Buckeye works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide.
- If you need to use a provider and are not sure if they offer the accommodations you need, Buckeye can help you. Talk to your care manager for assistance

B5. How to find Buckeye providers in your area

This provider directory is organized by provider type, then by the city. Look for the type of provider (for example, Primary Care Provider, Specialist, Hospital, etc.) then the city in which you live. You can also visit the website at mmp.buckeyehealthplan.com for the most current provider listing.

B6. List of network providers

This Directory of Buckeye’s network providers contains:

- **Health care professionals** (for example, primary care physicians, specialists, mental health providers, Qualified Family Planning Providers (QFPPs), dentists, and vision care providers);
- **Facilities** (for example, hospitals, long-term care facilities and skilled nursing facilities for rehabilitation, mental health facilities, Federally Qualified Health Centers, and Rural Health Centers);
and

You can also find the provider’s name and the page where the provider’s additional contact information is in the Index at the end of the Directory. Providers are also listed in alphabetical order by last name in the Index. In addition to contact information, provider listings also include specialties and skills, for example, such as languages spoken or completion of cultural competence training.

Cultural competence training is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.
